

HIGH-PERFORMANCE SPRING REWIND HOSE REEL FOR HEAVY-DUTY APPLICATIONS

For safer, easier, and more efficient fluid handling

Designed to withstand the toughest conditions and operating environments for long-term reliability.

TECHNICAL SPECIFICATIONS

- Holds 15 m of 38 mm hose
- Maximum working pressure of 150 PSI
- External dimensions of 640 mm x 640 mm x 635 mm (H x W x D)
- Weight of 56 kg

STANDARD APPLICATIONS

- Service and lube trucks
- Lubrication dispensing systems
- Mining and civil
- Washdown
- Dust suppression
- Agriculture

STANDARD FLUIDS HANDLED

- Air
- Water
- Oils (motor, gear, ATF, hydraulic etc.)
